

Cisco SPA 508G

Device overview

With hundreds of features and configurable service parameters, the Cisco SPA 508G addresses the requirements of traditional business users while building on the advantages of IP telephony.

The Cisco SPA 508G is a MiCall Auto-Provisioning device, using HTTPS/SSL to secure configuration information between the user and service provider. This provides a highly secure mechanism for the service provider to remotely manage the phone/user configuration and the device software upgrades.

Highlights

- Full-featured eight-line business-class IP phone supporting Power over Ethernet (PoE)
- Monochrome backlit display for ease of use, aesthetics and on-screen applications
- G722 HD voice audio support for unsurpassed voice clarity and enhanced speaker quality
- HTTPS secure automatic provisioning and software control
- Supports up to two Cisco SPA 500S Expansion Modules, allowing an additional 64 buttons for IPVS Busy Lamp Field feature integration
- IPVS Application Integration 4
- Context-sensitive soft keys/cal display with backlight
