

Cisco SPA 525G

Device overview

The Cisco SPA 525G 5-line IP phone (with colour display) is an excellent choice for businesses that require an enhanced user experience with Spire's IP voice services. The SPA 525G uses industry-quality hardware providing Bluetooth for headset connectivity, Power over Ethernet (PoE) or a Wireless-G client.

The Cisco SPA 525G is a MiCall Auto-Provisioning device, using HTTPS/SSL to secure configuration information between the user and service provider. This provides a highly secure mechanism for the service provider to remotely manage the phone/user configuration and the device software upgrades.

Highlights

- Feature rich and stylish five-line business IP phone
- Colour screen
- Support for multimedia functions such as MP3s
- Able to display digital photos and RSS feeds
